

#Inventingthefuture

Bachelor of Science in Computer Science

About the Programme

This programme provides students with a strong foundation in the theoretical and practical aspects of computing. The curriculum covers core areas such as programming, algorithms, data structures, operating systems, computer networks, software engineering, artificial intelligence, and database systems. Students also explore emerging fields like machine learning, cybersecurity, and cloud computing.

Entry Requirements

KCSE (or equivalent examination) certificate with a minimum aggregate of C+ (plus) and a minimum of C (plain) in Mathematics, English and Physics/Physical Science, or a Diploma from a recognised institution.

Intake

January, May, September

Mode of Delivery

Both Physical and Online

Duration

4 Years (8 Semesters)

Career Opportunities

- Chief Technology Officer
- System Administrators
- Cloud Security Engineer
- Data Scientists
- IoT Expert
- IT Infrastructure Engineer
- Systems Developer
- GIS Expert
- Game Developer
