

#Inventingthefuture

Certificate in Cyber Security and Forensics

About the Programme

This is an entry-level programme designed to introduce students to the fundamental principles of securing digital systems and investigating cyber threats. The course covers key areas such as network security, ethical hacking, digital forensics, data protection, and cybercrime investigation. Students gain practical skills in identifying vulnerabilities, responding to security incidents, and using forensic tools to collect and analyse digital evidence.

Entry Requirements

KCSE certificate with a minimum aggregate of D+ (plus), a minimum grade of D- (minus) in Mathematics, or a relevant qualification.

Intake

January, May, September

Mode of Delivery

Both Physical and Online

Duration

2 Semesters

Career Opportunities

- Cyber Security Analyst
- Administrative Assistant
- Cyber Security Systems Assistant
- IT Security Assistant
