Diploma in Project Management

About the Programme

The programme is designed to equip students with the essential skills and knowledge required to plan, execute, and manage projects across various sectors. It covers key areas such as project planning and scheduling, budgeting, risk management, monitoring and evaluation, and team leadership. Emphasising real-world application, the course prepares graduates to effectively manage resources, meet deadlines, and deliver successful outcomes in dynamic work environments. It is ideal for individuals seeking to build a career in project coordination, development work, business operations, or to enhance their entrepreneurial and managerial capabilities.
